miro

Thank you for purchasing miroT.

Please read the user manual
thoroughly before using miroT.

The manual information may change due to
the frequent firmware and interface updates.

Please carefully read, understand,
and follow all warnings and instructions.

The warranty information can be found in
this user manual.

Please keep this user manual for future use.

What is miroT?

Make your Miro home appliances into smart devices by connecting miroT.

Your environment, your control.

Check and change your environment using the Miro Smart Home Mobile Application. For example, you can tell your Miro Air Purifier to clear the air before you head back home.

Miro Smart Home Mobile Application

Tip
Certain Miro appliances may not be compatible with miroT.

Tip
Sensor availability may differ based on the model of the Miro appliance.

4

Speak to your appliances

miroT can be connected to various AI speakers.
Easily control your appliances anywhere.

AI Speaker   **miroT**   **Miro Home Appliances**

Tip
Your AI speaker may or may not be compatible with miroT.

Miro Smart Home Mobile App

A miroT is required to connect your home appliance to AI speakers or the Miro smart home app. You will need one miroT for each Miro appliance.

01. Installing the Miro Smart Home Mobile Application

Please visit Google Play Store (Android) or App Store (iOS) and search "Miro SmartHome."

02. Registration

Please use the "sign up" button to start the registration process.
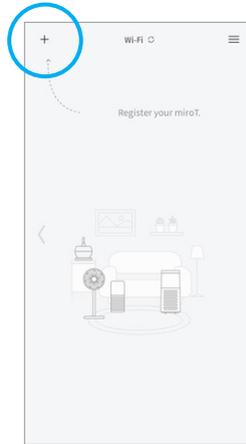

Tip
You will be automatically logged in after registration.

03. Connecting miroT 1-1

Press the + button on top left
to connect your miroT
for the first time.

03. Connecting miroT 1-2

When you are in the "Add new
device" section, go through the
steps to register your miroT.

Tip

Each appliances will have different
miroT slots. Make sure to check
the appliance manual to see
where the miroT slot is.

Tip

Press the help logo on top right
to get additional tip/description.

04. miroT Connectivity

Please make sure that your miroT is blinking between green and red. This means that your miroT is ready to pair.
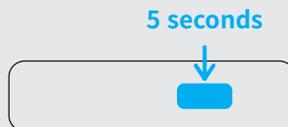

Tip

Please reset your miroT if the LED light is not blinking between green and red.

Tip

You can find more information on support.mirohome.com.

Resetting miroT

If your miroT is not blinking, please use a sharp object and press down the reset button for 5 seconds. This will start the reset process.

5 seconds

05. Automatically searching for your miroT

Miro Smart Home App will
automatically search for your miroT.
The app will go to the next step once
your miroT is automatically detected.

Tip
If your miroT is not automatically
detected, please go through the
connection process manually.

miroT is not connecting automatically

Check your miroT version and go through the connection
process manually.

Using multiple miroTs

Go through the manual process to ensure
that you are connecting the right miroT.

When 2nd generation miroT does not connect automatically

06 - 1. Searching manually

Select the 'miroT 2.0'
and press next.
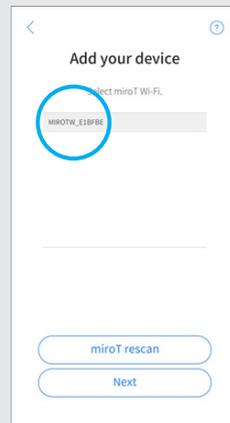

06 - 2. miroT Wi-Fi

Check your miroT serial number,
and select the serial number
you would like to connect.

Tip

Once selected, your miroT LED light
will slowly turn green.

Tip

Other miroT(miroT 1.0) is only used
in South Korea.

07. Choosing Wi-Fi Network

Select Wi-Fi network (SSID)
you would like to connect.

Tip

miroT can only connect to 2.4 GHz Wi-Fi
signal. It does not support 5.0 GHz Wi-Fi.

08. Password

Please type in your Wi-Fi network
password. Press next.

Tip

miroT connection process may be
interrupted if your password input is
incorrect. Please make sure to check
your password before this step.

09. miroT connection process

Once your Wi-Fi is connected, miroT
registration will automatically proceed.
It will take about 5 to 20 seconds.

10. Choosing a name for your miroT

Next step will require you to name
your miroT and choose the room
that your appliance is located in.
Go through the process and your
registration will be completed.

Tip

Please restart your Miro Smart Home
App if the registration gets stuck.

Tip

If you are having trouble using your
miroT, please contact us via support.
mirohome.com.
